

# ISMM 2019

The 11th International Symposium on Microchemistry and Microsystems

May 17-20, 2019

Yangling, Shaanxi, China

## || Scope

The ISMM is a series of symposia that started in Kanazawa, Japan in 2009. It is now an annual international symposium which is held in Asia and Oceania regions: in Hong Kong (2010), Seoul, Korea (2011), Hsinchu, Taiwan (2012), Xiamen, China (2013), Singapore (2014), Kyoto, Japan (2015), Hong Kong (2016), Tasmania, Australia (2017), and Busan, Korea (2018).

The ISMM 2019 will be held from May 17-20, 2019 at Northwest A&F University (Yangling, Shaanxi, China). The symposium will be held concurrently with two domestic symposiums (The 12th National Symposium on Micro Total Analysis Systems / The 7th National Symposium on Micro/Nano Scale Bioseparation and Bioanalysis) and another international conference (The 7th International Conference on Microfluidic Chip and Micro/Nano Scale Bioseparation Analysis). We are anticipating more than 500 international renowned scholars and scientists to participate in.

This symposium includes keynote presentations, technical oral presentations, poster presentations, and industrial exhibitions. More detailed information on the ISMM 2019 see the website as followings.
